SYNTHETIC — NOT REAL PHI — DEMO ONLY

Physical Therapy Progress Summary

Patient: Casey Morgan DOB 07/02/1985 Therapist: Lee Ortiz, PT Clinic: CoreMotion PT
Dates of care: 09/08/2026 – 10/20/2026 (6 weeks, 12 visits)

Treatment

Quadriceps and hip strengthening, range of motion, balance work, home exercises.

Outcome

Strength improved. Catching and locking with pivoting unchanged; swelling after activity. McMurray remains positive medially.

Recommendation

Mechanical symptoms persist after 6 weeks of conservative care. Recommend imaging.
